Restaurante La Escollera

This is a Spanish experience in itself, if you like fish. Just the crowds and the typical non-reservation system. You give your name at the door and they call you when there is a table. That can take a while if you come at prime-time so advice is to go early around opening time. At busy times, everyone is standing around the restaurant with drinks, super cosy and noisy, typically Spanish but really for fish lovers only. Directly opposite the fishing port. So Fresh! Another well known fish restaurant is Alma Miguel.
